## MASTER OF ARTS IN CLASSICAL EDUCATION (MACE)

The Master of Arts in Classical Education program provides educators with a strong philosophical foundation in classical education through instruction in the great works of Western civilization and the Catholic intellectual tradition as well as explicit instruction in pedagogy and curricular integration. The flexible course delivery during the school year as well as the affordable tuition make this program unique and well-suited for educators who are working full-time. As part of Benedictine College's vision for transforming culture in America, the Sheridan Center for Classical Studies offers this graduate degree in classical education to support those engaged in the renewal of liberal arts education.
